

## **Application Form**

The *Piecing Together Preparedness Program* consists of six modules, which include the necessary tools and resources to implement each concept. Upon successful completion of your first module, your facility will receive a *Piecing Together Preparedness* poster that can be used to track progress in the program. The poster includes six circles for you to add the missing “pieces” representing each program module. For each module successfully completed, your facility will receive a sticker to add to the poster, until you have filled in all the missing pieces.

To participate in this program, please complete this application and submit to the Florida Kidney Disaster Coalition (FKDC) via fax (813-354-1514). Upon receipt, we will review your application and send you an email confirmation. Participants must complete their first module within three months of submitting this application or it will become invalid. You may complete the modules in any order. We encourage you to submit the required documentation\* upon completion of each individual activity. If you have any questions, please contact FKDC at 813-383-1530x3325 or [fkdc@nw7.esrd.net](mailto:fkdc@nw7.esrd.net).

***\*Please do not email Reporting Forms and documentation. Send only via fax.***

### **Applicant Information** *(please write legibly)*

Facility Name:

Provider Number:

Contact Person (name & title):

Email:

Phone:

Signature of Contact (must match name provided above):

\*Number of Current Facility Staff:

\*Number of Patients:

*\*Please note: 100% staff/ 90% patient participation required for most modules*

If you are interested in another disaster preparedness topic not included in the current modules, please identify it on an attached page, along with a brief description of how you would monitor and evaluate its effectiveness. We will contact you to let you know if your plan is approved.
